

Gorgeous lips

PROTECTING • PLUMPING • BEAUTIFYING

INSTA LIPS

Say good bye to chapped and dry lips with this state of the art lip balm, packed with ceramides, hyaluronic acid and bakuchiol (vegetal retinol substitute). The emolient and moisturizing ingredients work to keep the lips soft and quenched. Additionally, the hyaluronic acid enhances the appearance of volume for fuller, more sensuous lips.

Hyaluronic acid can hold up to 30 times its weight in water and reduces wrinkles by pushing them up, leaving them less visible from the outside. As for bakuchiol, while its mechanism of action is similar to that of retinol, it is perfectly suitable for even the most sensitive skin types. Olive squalene nourishes the lips while the lipid-replenishing effect of Zhi Mu oil improves their structure.

who

For all skin types.

how

Click the pen several times until the first drop shows up. Apply one drop on clean lips, and massage with the special cooling tip.

inside

BABCHI SEED EXTRACT (bakuchiol) - *Extracellular matrix rejuvenator* - It is a well defined pure natural compound obtained from the edible seeds of *Psoralea corylifolia* (Bu-gu-zhi - 补骨脂). It improves dermal & dermo-epidermal architecture providing a broad-spectrum 3D structure benefit.

CERAMIDES COMPLEX (Plukenetia Volubilis) - *Fatty acids balance & Lipids layer protection* - PERFECT BALANCE OF BOTANICAL ORIGIN FATTY ACIDS: α OMEGA 3, OMEGA 6, OMEGA 9 AND CERAMIDE-3 (NP) with an exceptional skin bioavailability. Provides the skin with α linolenic acid (Ω 3), and linoleic acid (Ω 6) for a perfect balance.

PRO-HYALURON (sodium hyaluronate) - *Moisturizing & Smoothing* - Biological polysaccharide (glycosaminoglycan) distributed in the extracellular matrix of most tissues. Thanks to its extraordinary hydrophilic properties, it provides a hydrated medium between the cells thus protecting them against abrasion and friction. For this reason its anti-wrinkle, free radical capture and aging retardant effects are very potent. Hyaluronic acid has the capacity of retaining water at a percentage equivalent to a thousand fold its weight. It is for this reason that it is used for hydrating the epidermis as it reconstitutes the fibres that support the skin's tissues.

JIMO ROOT EXTRACT (anemarrhena asphodeloides (zhi mu) root extract) - *Volume lipofilling-like effect* - Extract from the roots of botanical *Anemarrhena asphodeloides* (知母 - zhi mu) rich in sarsasapogenin, phytosterol with no hormonal activity that promotes increased volume thanks to a cosmetic filling effect.

Pores no more

PORE REFINING • OIL REDUCTION • PIMPLE CONTROL

INSTA PORES

High in salicylates and succinic acid, this serum refines pores, leaving the skin soft and a smoother complexion. Achieve optimal results in just 7 days. Salicylates fights excess oil on the surface and in pores, while the keratolytic properties of succinic acid add softness to the skin.

It starts a 7-day cleansing process: during the first 2-3 days, as the skin is purified, blackheads may initially be more visible and pores appear clogged as oils and dirt are expelled. Over the next 2-3 days, the skin is cleansed and is gradually rid of excess sebum. Thereafter, the pores appear more refined and the skin surface begins to feel smoother.

who

For all skin types.

how

Click the pen several times until the first drop shows up. Apply one drop onto the pores by brushing it until complete absorption.

inside

SUCCINIC ACID · *Keratolytic effect & Detoxifying* · Succinic acid has a keratolic effect on the skin, it also has skin-softening and bacteria-inhibiting properties and helps to control sebum, therefore reducing shine and excess oil, which can potentially lead to breakouts. As succinic acid balances oily and congested complexions, it's ideal for patients with acne prone skin or oily skin types.

ASPEN BARK (salicylic acid) · *Pore unclogging* · Salicylic acid is a beta hydroxy acid (BHA), a type of carbon-based organic compound that naturally occurs in willow bark. When applied to the skin, salicylic acid works by helping the skin to shed dead cells from the top layer and by decreasing the number of pimples and oils in the top layers of the skin.

Wrinkle smoother

SMOOTHING • IRONING EFFECT • REPLENISHING

INSTA WRINKLES

This anti-wrinkle cream incorporates the properties of Zhi Mu, a plant-based filler which visibly smoothes wrinkles, and Argireline® Amplified, a peptide widely regarded as a safe cosmetic alternative to Botox. With ceramides, this cream visibly reduces the appearance of wrinkles while filling fine lines. Finally, Bakuchiol, confers smoothness and tone to the skin.

who

For all skin types.

how

Click the pen several times until the first drop shows up. Apply one drop onto the wrinkles, and massage with the special cooling tip.

BABCHI SEED EXTRACT (bakuchiol) · *Extracellular matrix rejuvenator* · It is a well defined pure natural compound obtained from the edible seeds of *Psoralea corylifolia* (Bu-gu-zhi - 补骨脂). It improves dermal & dermo-epidermal architecture providing a broad-spectrum 3D structure benefit.

MATRIX ECO (Phosphatidylcholine) · *Ceramides restore, Protecting & Moisturizing* · Specific lamellar ceramides that help repair and restore this natural protective barrier. Its main ingredient hydrogenated phosphatidylcholine (PC) mimics the lamellar structure of the extracellular matrix and forms a protective layer, preventing the skin from water loss.

ARGIRELINE AMPLIFIED (Acetyl Hexapeptide-8) · *Biomechanical wrinkles smoothing* · This powerful peptide is the 6th generation of the Botox-like topic alternative of the industry. This improved version of the peptide visually attenuates the appearance of expression wrinkles.

JIMO ROOT EXTRACT (anemarrhena asphodeloides (zhi mu) root extract) · *Volume lipofilling-like effect* · Extract from the roots of botanical *Anemarrhena asphodeloides* (知母 - zhi mu) rich in sarsasapogenin, phytosterol with no hormonal activity that promotes increased volume thanks to a cosmetic filling effect.

Eye lifting

EYES WIDE OPEN • EYELID LIFTING • TENS-UP EFFECT

INSTA EYES

With its special application method, this magnificent serum opens up the gaze and lifts the eyelids, leaving the eye contour looking rested, with a clear before-and-after effect.

Formulated with two hexapeptide's compound that disguise expression lines and leave the features looking rested. Also contains a biotechnological extract obtained from Gleditsia with an instant tightening effect. Results are noticeable from the first application, with more lasting results after 15 days of use.

who

For all skin types.

how

Click the pen several times until the first drop shows up. Apply one drop onto the eye lid or eye contour, brushing the skin tightly and always upwards. Brush 3 times on each segment of the skin making parallel sweeps until the full area has been covered.

inside

INST'THIGHT (Gleditsia Triacanthos) · *High mechanical tightening properties & Instantly minimizes the appearance of wrinkles and fine lines* · This natural ingredient forms a tridimensional biopolymeric network at the surface of the skin instantly minimizing the appearance of wrinkles and fine lines. It has been tested on crow's feets, forehead lines and frown lines. It shows visible results only 3 minutes after application and with a longlasting effect throughout the day (up to 8 hours).

ARGIRELINE AMPLIFIED (Acetyl Hexapeptide-8) · *Biomechanical wrinkles smoothing* · This powerful peptide is the 6th generation of the Botox-like topic alternative of the industry. This improved version of the peptide visually attenuates the appearance of expression wrinkles.

i-PEPTIDE (Acetyl Hexapeptide-8) · *Rested eyes & Skin tightening* · It prevents damage induced by sleep deprivation and improves all the visible signs of tiredness, especially around the eye contour area.
